

A satellite view of the Liceo Scientifico di Stato 'A. Galvani' building in Palermo. The building is a large, rectangular structure with a prominent red-tiled roof. It is situated on a street corner, with a road labeled 'VIA M. C. C. C.' running vertically to its left and 'VIA M. C. C. C.' running horizontally in front of it. The building's facade is light-colored, and there are several windows visible. The surrounding area includes other buildings, trees, and a parking lot. The image is a high-resolution satellite photograph, likely from Google Earth, showing the building's layout and its integration into the urban fabric of Palermo.

Architectural site plan of the 'Rinascita' complex in Chiasso. The plan shows a large building complex with various roof types: flat bituminous (dotted), Marsiglian tiles (cross-hatched), and aluminum (vertical lines). A central courtyard (CORTILE CENTRALE) is flanked by 'CORTILE NORD' and 'CORTILE SUD'. Internal roads (STRADA INTERNA) and external roads (VIA G. CHIASSI, VIA L. APOLLONIO, VIA MONTE SUELLO) are indicated. A legend in the top right defines the roof types. A north arrow is in the top left. A red dashed line outlines the 'riquadro porzione edificio oggetto d'intervento' (red dashed box).
