

The drawing consists of two parts: a plan view on the left and a cross-section view on the right.

**Plan View (Left):** Shows a rectangular structure with a hatched area labeled "chiusino in ghisa corrabile" (removable cast iron cover) at the top. A horizontal dimension line above the structure indicates a length of "circa 50,00 mt". A vertical dimension line on the right indicates a width of "1,00". A horizontal pipe is shown at the bottom right, with an arrow indicating flow direction.

**Cross-section View (Right):** Shows the structure's profile. The top hatched area is labeled "chiusino in ghisa corrabile". The vertical dimensions on the left are "0,70" for the main structure height and "0,30" for the base height. A horizontal pipe is shown at the bottom right, with an arrow indicating flow direction. The text "Scala 1:25" (Scale 1:25) is written to the right of the cross-section.

TRATTO INTERVENTO 2-8
