FIM ENDURO WORLD CHAMPIONSHIP 2021
Gran Premio d'Italia – Acerbis Città di Edolo

Edolo (BS, Italy)
25-27 June 2021

Three years ago, immediately after the 2018 Enduro GP, a quick exchange of words between Costante Bontempi (Motoclub Sebino President) and Luca Masneri (Mayor of Edolo) was enough: “When we will do that again?”, asked the Mayor, “Immediately!” replied Costante. That was a memorable World Championship, so much that was awarded “ Best race of the season” from the FMI, for the excellent organisation.

Meanwhile global events have changed our time but, in spite of all the difficulties, today in Edolo (BS) took place the official presentation of the 2021 Enduro GP World Championship Italian stage, Gran premio d'Italia – Acerbis Citta di Edolo scheduled from June 25 to June 27. Beside Motoclub Sebino, Motoclub Edolo key figures (Luciano Mossini, Renato Tevini e Mauro Casalini) were present; Italian Champion Fabio Mossini (4 Titles and the World Record for the highest altitude achieved on a twin-cylinder motorcycle, 5.977 mt.) was present as well as the Mayor, Comunità Montana and council members from Edolo, Sonico e Malonno.

Costante Bontempi anticipated the introduction of the new Open category with the participation of some impressive riders, including Joseph Garcia, Brad Freeman, Giacomo Redondi, Davide Guarnieri, Mirko Spandre and many more. Fabio Mossini remembered his debut as a young champion with the Motoclub Sebino and he surprisingly announced his racing comeback. He will race Saturday 26 in his home race. Luciano Mossini, Fabio's father and Motoclub Edolo leader, has pointed out how important this kind of event are: the World Championship brings shine on the Town and the surrounding communities.

The mayor sponsors are indeed Consorzio Ponte di Legno – Tonale and Visit Brescia, we hope that hosting the World Championship will give a nice boost to touring promotion for the whole Valle Camonica and for the Provincia di Brescia as well. The Mayor at the end thanked Motoclub Edolo and Motoclub Sebino for the hard work and for the perfect organisation, under every aspect, especially the attention paid for the Safety.

From other speeches emerged the common will of a restart and, as well ,emerged what really we all miss this last months: Human relationship, because what makes real emotions unforgettable, are people ; the very same people who support the desire of rebirth for the whole community.
