

## An aerial photograph of a densely populated residential area. The houses have red-tiled roofs and are arranged in a grid-like pattern. A blue rectangle highlights a specific building in the center of the image. The building is a two-story structure with a light-colored facade and a dark roof. It is surrounded by other houses and green spaces. The image is oriented vertically, with the top of the page at the bottom of the image.

The map shows a dense urban grid. A large cyan circle highlights a central area containing a blue square. A red dashed line runs horizontally across the top, while a yellow dashed line runs vertically through the center. A green dashed line runs diagonally from the bottom left towards the center. Building footprints are represented by hatched patterns, and streets are shown as thin grey lines. Parks or open spaces are indicated by white areas without hatching.
