Ci parli della Valutazione di Impatto Ambientale (VIA)

Knowing how to handle conflict is an important professional skill. Conflict at work can affect the motivation and well-being of staff and create unnecessary distractions and stress. People with conflict management skills resolve disagreements quickly and effectively, enabling effective teamwork and maximum productivity. Successful conflict management also helps to create an atmosphere in which individuals can learn from others, develop their talents and think creatively.

Ci parli della Verifica di Assoggettabilità alla Via

It might be tempting to think you can do everything faster and better than your team members. It might be hard to hand over tasks you enjoy doing. But attempting to do everything all by yourself shows poor leadership and can end in personal burnout. You end up overworked, stressed and unable to be the leader your team needs. Leading a team brings new responsibilities and challenges, and managers need to learn to delegate as much as possible.

Tipologie autorizzative previste dalla normativa ambientale

To achieve their goals effectively, team members need to co-operate and be generous with their resources, including their own talents. When people get to know the strengths of their individual team members, they can use the different skills and expertise in the team to their advantage. Team leaders can create a culture of co-operation by setting an example that includes spending time talking to and supporting individuals, and sharing their knowledge and resources with their team.

Ci parli dell'Autorizzazione Integrata Ambientale

The question for the future is how to satisfy the increasing demand for timber in light of dwindling resources and poor quality. The answer is that wood-based products will increase in significance. The economic use of wood, or rather the use of the "waste" generated during its processing, has led to the development of numerous new wood-based products. Wood-based products are manufactured by pressing together wood particles of various sizes with synthetic resin adhesives or mineral.
